

# TechExpo at BITS Pilani

## NT KURIOCIITY

**W**ith the objective to make people aware of what engineering students do at BITS, a TechExpo was held at BITS Pilani, K K Birla Goa Campus. A total of 210 school students attended the event. The event saw the participation from over 10 schools, namely, Mushtifund High School, Dr KB Hedgewar High School, People's High School, Bhatikar Model High School, Almeida High School, Dhempe College, Sharada Mandir School, etc. Coordinator of TechExpo, Jay Prabodh Kamat said that through such an event

students benefit the most as they know what engineering is right from high school and how important it is to think like an engineer. "They also get exposure of what students do after they get into engineering colleges like BITS Pilani," he added. The expo witnessed a wide range of engineering projects ranging from robots, cars, drones, telescopes to projects on persistence of vision and Schlieren photography. There were talks given by various project heads who described their projects. There was also a live demonstration of a car and drone to mark the end of the event.
