

Ideathon sensitises cops over emerging challenges

Staff Reporter

Panaji

The Goa police held an Ideathon at BITS Pilani, Goa on the topic of implications of 5G technology for law enforcement agencies. The event aims to sensitise the police personnel about the changes they shall witness in the future and be well prepared to deal with the emerging challenges.

This is the first such Ideathon for any law enforcement agency in the country.

Director General of Police (DGP) Jaspal Singh enlightened the audience about challenges that are currently being faced by the citizens and the nature of crimes that are likely to be faced in the near future. IGP Omvir Singh, DIG (crime and range) Bosco George and other police officials were also present.
