In-Depth Advice for Tuning and Programming  
Java 8, 11, and Beyond

Scott Oaks

Acc. No : 46060

Call No : 005.133 OAK-S

Coding and testing are generally considered separate areas of expertise. In this practical book, Java expert Scott Oaks takes the approach that anyone who works with Java should be adept at understanding how code behaves in the Java Virtual Machine including the tunings likely to help performance. This updated second edition helps you gain in-depth knowledge of Java application performance using both the JVM and the Java platform. Developers and performance engineers alike will learn a variety of features, tools, and processes for improving the way the Java 8 and 11 LTS releases perform. While the emphasis is on production-supported releases and features, this book also features previews of exciting new technologies such as ahead-of-time compilation and experimental garbage...

AN **INDIAN** ADAPTATION

# Data Mining for Business Analytics

Concepts, Techniques and Applications in R

Shmueli | Bruce | Yahav  
Patel | Lichtendahl Jr.

Adapted by  
**O. P. Wali**

**WILEY**

Acc. No : 45605

Call No : 005.54 SHM-G

**Data mining for business analytics: concepts, techniques, and applications in r is a comprehensive resource for learners pursuing graduate and undergraduate level courses in data mining, business analytics, and related courses within domain of AI. This is an excellent reference for analysts, researchers, and practitioners working in various domains of business like finance, marketing, human Resource, operations, information services, consultancy etc. , who want to tap more opportunities for insights in variety of data driven decision-making scenarios. This Indian adaptation covers both statistical and machine leaning algorithms for prediction, classification, visualization, dimension reduction, recommender systems, clustering, text mining and network analysis. Content has been...**

# Blockchain for IoT

Edited by  
Debarka Mukhopadhyay  
Siddhartha Bhattacharyya  
Balachandran Krishnan  
Sudipta Roy

Acc. No : 46918

Call No : 005.74 MUK-D

**Block chain for IOT provides the basic concepts of Block chain technology and its applications to varied domains catering to socio-technical fields. It also introduces intelligent Block chain platforms by way of infusing elements of computational intelligence into Block chain technology. With the help of an interdisciplinary approach, it includes insights into real-life IOT applications to enable the readers to assimilate the concepts with ease. This book provides a balanced approach between theoretical understanding and practical applications. A self contained approach to integrating the principles of block chain with elements of computational intelligence. A rich and novel foundation of block chain technology with reference to the internet of things conjoined with the tenets of...**

## CYBER SECURITY APPLICATIONS FOR INDUSTRY 4.0

Edited by  
R Sujatha  
G Prakash  
Noor Zaman Jhanjhi

CRC Press  
Taylor & Francis Group  
A CHAPMAN & HALL BOOK

Cyber Security Applications for Industry 4.0 provides integrated features of various disciplines in Computer Science, Mechanical, Electrical, and Electronics Engineering which are defined to be Smart systems. It is paramount that Cyber-Physical Systems Provide accurate, real-time monitoring and control for smart applications and services. With better access to information from real-time manufacturing systems in industrial sectors, the CPS aim to increase the overall equipment effectiveness, reduce costs, and improve efficiency. Industry 4.0 technologies are already enabling numerous applications in a variety of industries. Nonetheless, legacy systems and inherent vulnerabilities in an organization's technology, including limited security mechanisms and logs, make the move to...

Lars Hörmander

# The Analysis of Linear Partial Differential Operators I

Distribution Theory and  
Fourier Analysis

Springer

**Acc. No : 42502**

**Call No : 512.55 HOR-L**

The main change in this edition is the inclusion of exercises with answers and hints. This is meant to emphasize that this volume has been written as a general course in modern analysis on a graduate student level and not only as of the beginning of a specialized course in partial differential equations. In particular, it could also serve as an introduction to harmonic analysis. Exercises are given primarily to the sections of general interest; there are none to the last two chapters. Most of the exercises are just routine problems meant to give some familiarity with the standard use of the tools introduced in the text. Others are extensions of the theory presented there. As a rule rather complete though brief solutions are then given in the answers and hints. To a large extent, the exercises...

George Em Karniadakis

# Numerical Methods for Stochastic Partial Differential Equations with White Noise

Acc. No : 42501

Call No : 519.22 ZHA-Z

This book covers numerical methods for stochastic partial differential equations with white noise using the framework of Wong-Zakai approximation. The book begins with some motivational and background material in the introductory chapters and is divided into three parts. Part I covers numerical stochastic ordinary differential equations. Here the authors start with numerical methods for SDEs with delay using the Wong-Zakai approximation and finite difference in time. Part II covers temporal white noise. Here the authors consider SPDEs as PDEs driven by white noise, where discretization of white noise leads to PDEs with smooth noise, which can then be treated by numerical methods for PDEs. In this part, recursive algorithms based on Wiener chaos expansion and stochastic...

VINTAGE FEYNMAN

$$\frac{\partial \psi}{\partial t}(x, t) + \mu(x, t) \frac{\partial \psi}{\partial x}(x, t) + \frac{1}{2} \sigma^2(x, t) \frac{\partial^2 \psi}{\partial x^2}$$

# 'SURELY YOU'RE JOKING, MR FEYNMAN!'

Introduction by  
Bill Gates

Acc. No : 46631

Call No : 530.092 FEY-R

With his characteristic eyebrow-raising behavior, Richard P. Feynman once provoked the wife of a Princeton dean to remark, Surely you're joking, Mr. Feynman! But the many scientific and personal achievements of this Nobel Prize-winning physicist are no laughing matter. In addition to solving the mystery of liquid helium, Feynman has been commissioned to paint a naked female toreador and asked to crack the uncrackable safes guarding the atomic bomb's most critical secrets. He has traded ideas with Einstein and Bohr, discussed gambling odds with Nick the Greek, and accompanied a ballet on the bongo drums. Here, woven with his scintillating views on modern science, Feynman relates the defining moments of his accomplished life. Over period of years, Feynman's conversations with his...

WILLIAM C. REYNOLDS

# Thermodynamics

FUNDAMENTALS  
AND ENGINEERING  
APPLICATIONS

Acc. No : 46700

Call No : 536.7 REY-W

This concise text provides an essential treatment of thermodynamics and a discussion of the basic principles built on an intuitive description of the microscopic behavior of matter. Aimed at a range of courses in mechanical and aerospace engineering, the presentation explains the foundations valid at the macroscopic level in relation to what happens at the microscopic level, relying on intuitive and visual explanations which are presented with engaging cases. With ad hoc, real-world examples related also to current and future renewable energy conversion technologies and two well-known programs used for thermodynamic calculations, Fluid Prop and StanJan, this text provides students with a rich and engaging learning experience. Includes online data sets of problem material for Fluid Prop and...

# NATURE-INSPIRED ALGORITHMS

FOR ENGINEERS AND SCIENTISTS

Krishn Kumar Mishra

 **CRC Press**  
Taylor & Francis Group

Acc. No : 46912

Call No : 571.0284 MIS-K

This comprehensive reference text discusses nature inspired algorithms and their applications. It presents the methodology to write new algorithms with the help of MATLAB programs and instructions for better understanding of concepts. It covers well-known algorithms including evolutionary algorithms, genetic algorithm, particle Swarm optimization and differential evolution, and recent approached including gray wolf optimization. A separate chapter discusses test case generation using techniques such as particle swarm optimization, genetic algorithm, and differential evolution algorithm. The book discusses in detail various nature inspired algorithms and their applications. Provides MATLAB programs for the corresponding algorithm. Presents methodology to...

This book encapsulates the best suited daily exercises, diets, and the challenges that can be faced during your weight training regime. It is based on Yash Birla's personal experiences. Through the pages of this book you will discover: How your fitness and body building goal can be easily achievable How to stay motivated during your exercise regime The essential principles of weight training How to select the right exercise regime Quick, healthy and easy to make recipes Tips on how to lose fat effectively Everyone's body and life is unique, so this book can be used as a blueprint to build your perfect body. It is important that you see...

# BILL GATES HOW TO PREVENT THE NEXT PANDEMIC

allen lane

Acc. No : 46676

Call No : 614.5924 GAT-B

The COVID-19 pandemic isn't over, but even as governments around the world strive to put it behind us, they're also starting to talk about what happens next. How can we prevent a new pandemic from killing millions of people and devastating the global economy? Can we even hope to accomplish this? Bill Gates believes the answer is yes, and in this book he lays out clearly and convincingly what the world should have learned from COVID-19 and what all of us can do to ward off another disaster like it. Relying on the shared knowledge of the world's foremost experts and on his own experience of combating fatal diseases through the Gates Foundation, he first makes us understand the science of corona diseases. Then he helps us understand how the nations of the world...

# Perspectives in Flow Control and Optimization

Max D. Gunzburger

Acc. No : 42425

Call No : 620.1064 GUN-M

Flow control and optimization has been an important part of experimental flow science throughout the last century. As research in computational fluid dynamics matured, CFD codes were routinely used for the simulation of fluid flows. Subsequently, mathematicians and engineers began examining the use of CFD algorithms and codes for optimization and control problems for fluid flows. The marriage of mature CFD methodologies with state-of-the-art optimization methods has become the center of activity in computational flow control and optimization. Perspectives in Flow Control and Optimization presents flow control and optimization as a sub discipline of computational mathematics and computational engineering. It introduces the development and...

# Nonlinear Optical Systems

**Luigi Lugiato,  
Franco Prati and Massimo Brambilla**

Acc. No : 46699

Call No : 621.3694 LUG-L

Guiding graduate students and researchers through the complex world of laser physics and nonlinear optics, this book provides an in-depth exploration of the dynamics of lasers and other relevant optical systems, under the umbrella of a unitary spatio temporal vision. Adopting a balanced approach, the book covers traditional as well as special topics in laser physics, quantum electronics and nonlinear optics, treating them from the viewpoint of nonlinear dynamical systems. These include laser emission, frequency generation, solitons, optically bistable systems, pulsations and chaos and optical pattern formation. It also provides a coherent and up-to-date treatment of the hierarchy of nonlinear optical models and of the rich variety of phenomena they describe, helping readers to understand the limits of...

# OUTPACER

The blueprint for  
breakthrough success  
in the digital era

'A unique insight into the biggest growth stories in tech'  
Kristin Reinke, Vice President of Finance, Google

Acc. No : 46547

Call No : 650.1 HOL-A

Over the past decade a small number of companies have changed every aspect of how we live, work and play. These Outpacers have become enormous global businesses with companies like Google, Amazon, Netflix, Salesforce, Meta, Tesla and Apple all totally redefining what a successful organization looks and feels like. Each chapter in Outpacer focusses on an Outpacer characteristic required for organizational greatness and features examples of what it is and how to achieve it, including; how to structure your company's mission and vision, foster the right entrepreneurial culture, innovate, collaborate and utilize agile technology and data driven insights to drive continuous progress, deliver an exceptional customer experience and achieve outstanding results. Each Outpacer characteristic is...

# Introduction to **DIGITAL** **MARKETING 101**

Easy to Learn and implement hands on guide for digital marketing

**Cecilia Figueroa**

Acc. No : 45906

Call No : 658.872 FIG-C

Social media marketing has stemmed from people's communication habits. Nowadays, social networking platforms are essential in practice, even in marketing. To understand the changes and transformations the field of marketing has undergone until now, it is important to know its origin. This complete guide will help you start selling and marketing your business by teaching you both SEO/SEM and web usability. You will learn the analytical part of Google Analytics and online advertising through Google AdWords. This book will introduce you to Web 2.0, and at the end of it, you may also want to make a career change to digital marketing. Have you ever wondered how you can work smart with products that offer a range of essential applications for businesses. What are the prerequisites for a successful...

# PHIL WANG

Acc. No : 45256

Call No : 305.805 WAN-P

But where are you really from? Phil Wang has been asked this question so many times he's finally written a book about it. In this mix of comic memoir and observational essay, one of the UK's most exciting stand-up comedians reflects on his experiences as a Eurasian man in the West and in the East. Phil was born in Stoke-on-Trent, raised in Malaysia, and then came of age in Bath - 'a spa town for people who find Cheltenham too ethnic'. Phil takes an incisive look at what it means to be mixed race, as he explores the contrasts between cultures and delves into Britain and Malaysia's shared histories, bringing his trademark cynicism and wit to topics ranging from family, food, and comedy to race, empire, and colonialism. This book provides a compelling, thoughtful and informative introduction to...

K H E M L A T A W A K H L U

# A KASHMIRI CENTURY

PORTRAIT OF A SOCIETY IN FLUX

Acc. No : 45283

Call No : 306.09546 LAT-K

A Magnificent Account of Kashmir's Social History  
Perhaps the most enigmatic region in the world, Kashmir has a special place in the Indian subcontinent's history. Over the several centuries of being ruled by kings from diverse faiths and cultures-Hindus, Buddhists, Muslims, Afghans, Sikhs and Dogras, the region has undergone various cycles of social, cultural and religious changes. Since India's independence, the Kashmir valley has received more media and government attention than any other state. The reasons have been mostly political than for its natural beauty, its contribution to Indian literature or its exuberant flora and fauna. A Kashmiri Century is a one-of-a-kind book that delves deep into the human side of living in the Valley, an aspect often missing in the cold political treatises on...

# THE WISE MEN

SIX FRIENDS AND  
THE WORLD THEY MADE

WALTER ISAACSON

author of *STEVE JOBS*

& EVAN THOMAS

author of *IKE'S BLUFF*

Acc. No : 46624

Call No : 327.2092 ISA-W

With a new introduction by the authors, this is the classic account of the American statesmen who rebuilt the world after the catastrophe of World War II. A captivating blend of personal biography and public drama, *The Wise Men* introduces six close friends who shaped the role their country would play in the dangerous years following World War II. They were the original best and brightest, whose towering intellects, outsize personalities, and dramatic actions would bring order to the postwar chaos and leave a legacy that dominates American policy to this day: Averell Harriman, the freewheeling diplomat and Roosevelt's special envoy to Churchill and Stalin; Dean Acheson, the secretary of state who was more responsible for the Truman Doctrine than Truman and for the Marshall...

# POWER PLAY

Elon Musk, Tesla and  
the Bet of the Century

'A masterclass in narrative journalism'

Bradley Hope

'Exemplary' *The Times*

'An exceptional work'

*Washington Post*

TIM HIGGINS

Acc. No : 46643

Call No : 338.4762 HIG-T

Play is the riveting inside story of Elon Musk and Tesla's bid to build the world's greatest car from award-winning Wall Street Journal tech and auto reporter Tim Higginson Musk is among the most controversial titans of Silicon Valley. To some he's a genius and a visionary; to others he's a mercurial huckster. Billions of dollars have been gained and lost on his tweets; his personal exploits are the stuff of tabloids. But for all his outrageous talk of mind-uploading and space travel, his most audacious vision is the one closest to the ground: the electric car. When Tesla was founded in the 2000s, electric cars were novelties, trotted out and thrown on the scrap heap by carmakers for more than a century. But where most onlookers saw only failure, a small band of Silicon Valley engineers and entrepreneurs saw...

THE  
ROOM  
WHERE IT  
HAPPENED

A White House Memoir

JOHN  
BOLTON

Former National Security Advisor  
of the United States

Acc. No : 41733

Call No : 973.933 BOL-J

As President Trump's National Security Advisor, John Bolton spent many of his 453 days in the room where it happened, and the facts speak for themselves. The result is a White House memoir that is the most comprehensive and substantial account of the Trump Administration, and one of the few to date by a top-level official. With almost daily access to the President, John Bolton has produced a precise rendering of his days in and around the Oval Office. What Bolton saw astonished him: a President for whom getting reelected was the only thing that mattered, even if it meant endangering or weakening the nation. I am hard-pressed to identify any significant Trump decision during my tenure that wasn't driven by reelection calculations, he writes. In fact, he argues that...

Emotional Intelligence

# VIRTUAL EI

Acc. No : 46713

Call No : 152.4 HBR

Managing your team, building relationships and trust, and facilitating effective meetings in a hybrid or fully remote workforce is challenging. Virtual EI explores how to develop, practice, and demonstrate your emotional intelligence and social skills in a virtual or hybrid setting. You'll learn how to make your team feel heard, draw everyone's voice into the conversation, and make real connections. How to be human at work. The HBR Emotional Intelligence Series features smart, essential reading on the human side of professional life from the pages of Harvard Business Review. Each book in the series offers proven research showing how our emotions impact our work lives, practical advice for managing difficult people and situations, and inspiring essays on what it means to tend to our emotional...

## BEING RAM DASS

Acc. No : 43112

Call No : 204.092 DAS-R

Perhaps no other teacher has sparked the fires of as many spiritual seekers in the West as Ram Dass. If you've ever embraced the phrase be here now, practiced meditation or yoga, tried psychedelics, or supported anyone in a hospice, prison, or homeless center then the story of Ram Dass is also part of your story. From his birth in 1931 to his luminous later years, Ram Dass saw his life as just one incarnation of many. This memoir puts us in the passenger seat with the one-time Harvard psychologist and lifelong risk-taker Richard Alpert, who loved to take friends on wild rides on his Harley and test nearly every boundary inner or outer that came his way. Being Ram Dass shares his life's odyssey in intimate detail: how he struggled with issues of self-identity and sexuality in his youth, pioneered psychedelic...

# THE HERO OF TIGER HILL

AUTOBIOGRAPHY OF A PARAM VIR

CAPT (HONY)  
YOGENDRA SINGH YADAV

Acc. No : 46625

Call No : Biography YAD-Y

I was not afraid of death. All I prayed for now was to not die before winning back Tiger Hill for India. On the night of 3 July 1999, Grenadier Yogendra Singh Yadav, all of 19 years old, was given a very crucial task along with the Ghatak Platoon of 18 Grenadiers to capture the impenetrable Tiger Hill. Fresh after capturing Tololing Hill, the Unit was high on josh, but also battered and bruised. Braving the inhospitable terrain, freezing cold weather and facing fierce enemy fire, he was the first in this Ghatak Platoon to reach the top. Even after his body was pierced by multiple bullets and grenade shrapnel, he charged the enemy bunkers and cleared the path for the regiment to capture the mighty peaks of Tiger Hill. He displayed the most conspicuous courage, indomitable gallantry, grit and determination under...

Simi works in marketing at a furniture company. Ranvir is an analyst at a finance startup. While their desks happen to be on the same floor at Bizworks, a swanky co-working space in Bangalore, their paths aren't meant to cross. But as circumstances bring them together again and again, they find it harder to deny the spark between them. In a live-in relationship with his girlfriend, Ranvir doesn't expect to have feelings for someone else. And while Simi's family pushes for the perfect arranged match for her, she knows she doesn't love the man her parents want her to marry. When their personal lives clash with their attraction at work, Simi and Ranvir must decide if they want to remain just co-workers or mean more to each other. The inclusion of families of the protagonists makes the story a wholesome...

Acc. No : 44125

Call No : Fiction KIN-P (Young Learners)

This illustrated novel is based on of Poptropica's most recent islands, Lunar Colony. An astronaut has gone a cryptic message about the discovery of an alien transmission. Back on Earth, an unsuspecting boy named Glen Johns finds himself trapped on a rocket that's about to blast off toward a remote moon base. Trapped on the moon, Glen must find the secret of the missing astronaut and the truth behind the alien transmission. The words flashed brightly across the computer monitor, but commander Rachel Salerno was too busy to notice. Instead, she sat hunched over her workstation, poring over the mountain of notes, maps and drawings that littered her desk. Where are you, number four, she mumbled to herself. As the only astronaut remaining on the moon, she talked herself ...
