Seminar on “Elucidation of excited state dynamics in complex systems”

By **Professor Anindya Datta**, Department of Chemistry, Indian Institute of Technology Bombay, Powai, Mumbai 400 076, India, e-mail: anindya@chem.iitb.ac.in

Abstract: The theme of research in our group is to study excited state processes in molecules and materials. In recent times, we have ventured into exploratory studies in biological systems.

Date	Time	Venue
25/02/2020 (Tuesday)	15:00 hrs	L202

All are cordially invited to attend the seminar
