

Faculties from the Department of Pharmacy, BITS Pilani, Hyderabad Feature Among World Top 2% Scientists

Three faculty members from the Department of Pharmacy, BITS-Pilani Hyderabad Campus, including Profs. D. Sriram, P. Yogeeswari, and Swati Biswas have been featured in a recent article by a famous analyst group of Stanford University published in the journal of PLOS Biology. The article has ranked world top 2 % scientists of various disciplines by considering numerous criteria, including citation, h-index, co-authorship adjusted hm-index, citation to papers in different authorship positions and several composite indicators. The research work led by Both Profs. D. Sriram and Yogeeswari have been highlighted in the field of Medicinal and Biomolecular Chemistry in the sub-field of organic chemistry, and Pharmacy and Pharmacology, respectively and by Prof. Swati Biswas in the field of Pharmacy and Pharmacology in the sub-field of Nanoscience and Nanotechnology. The recognition via the quantification of the scientific merit through a world-wide database is indeed inspiring. Congratulations to Prof. Sriram, Prof. Yogeeswari, and Prof. Biswas for the research endeavour, and for representing BITS-Pilani in a worldwide platform of innovative research.
