

[Invited Talk by Abhijit Kane](#)

The Department of Computer Science organized a talk by BITS Pilani Hyderabad campus CSIS alumnus Mr. Abhijit Kane - the founder of the \$2 Billion company, Postman - on the 30th of January 2021. The session mainly focused on his journey from being a BITSian to being the founder of his successful startup and the technologies he primarily deals with - namely APIs.

Discussions included entrepreneurship as a career, inception and growth of Postman Inc. and APIs: what APIs are and how Postman works with them. A student program was introduced as well, which would teach students about working with APIs. The session ended on a light, cheerful note, with Mr. Kane giving an insight into his college life at BITS Pilani, Hyderabad Campus.
