**The Royal Society of Chemistry (RSC) is a learned society of United Kingdom with the goal of “advancing the chemical sciences.” The headquarters of the Society is at Burlington House, Piccadilly, London (U.K.) along with branch offices in the United States at the University City Science Center, Philadelphia, in Beijing and Shanghai, China and in Bangalore, India.**

**The RSC Western India Section organizes a wide range of events to support chemical scientists at all stages in their careers including frequent lectures and symposia, popular science events and activities for postgraduates and undergraduates.**

**RSC Western India Meet of Research Scholars-2016 is an event organized for research scholars and young academicians to showcase their research in front of distinguished panelists from RSC Western India Section. This is an unique opportunity especially for young doctoral research scholars to interact with eminent scientists and fellow scholars from different institutions of Western India region. The scientific session will be consisting of lectures by eminent academicians/ researchers, short lectures by students, and poster presentations.**

**The Birla Institute of Technology & Science (BITS) Pilani is an all-India Institute for higher education. Over the years, BITS has provided the highest quality technical education to students from all over India admitted on the basis of merit. Its graduates may be found throughout the world in all areas of engineering, science and commerce. BITS symbolizes the maturing of Indian technical ability and "can-do" entrepreneurial spirit, especially as derived from the private sector.**
