

Birla Institute of Technology
and Science, Pilani

Workshop and Training on Current Research Trends in Condensed Matter-Material Science

The workshop-cum-training programme aims to give an exposure to the participants to the latest research and development in certain fields of condensed matter physics and material science, through a series of lectures. The participants will also gain hands-on experience of sophisticated laboratories.

Organized by

Dept. of Physics,
BITS Pilani, 333031, Rajasthan.

Partially Sponsored by

University Grants Commission, India

March 7-8, 2014

About the Institute

BITS Pilani is a multi-campus university with campuses in Pilani, Goa and Hyderabad in India and Dubai in UAE. BITS Pilani is known for its flexible and modular academic curriculum with strong emphasis on University-Industry linkages through its Practice School Programme. BITS offers an innovative dual-degree scheme and has a strong focus on off-campus work integrated learning programmes for working professionals. For more details, please visit www.bits-pilani.ac.in

About the Department

The physics department has existed since 1944, first as part of Birla Science College, and later, since 1964, as part of Birla Institute of Technology and Science. The department runs an integrated M.Sc. programme as well as the Ph.D. programme. Supported by the Special Assistance Programme (SAP) of UGC, the FIST programme of DST, and several other research grants to members of its faculty, the department is actively engaged in research in all major areas of both theoretical and experimental physics.

Organizing Secretary

Prof. R. R. Mishra,
rrmishra@pilani.bits-pilani.ac.in

Convener

Dr. Raj Kumar Gupta,
raj@pilani.bits-pilani.ac.in

HOD, Physics Dept.

Prof. Debashis Bandyopadhyay,
